

## International Experience Program Weekly Report (05<sup>th</sup> July To 19<sup>th</sup> July, 2025)

### **Day = (-1) (05th July, 2025): Departure from Sardar Vallabh Bhai Patel Airport, Ahmedabad**

The journey for IEP-2025 for Civil Engineering and BBA Students began from Sardar Vallabh Bhai Patel Airport, Ahmedabad where students from all the institutes of Gujarat Technological University gathered. All students with their parents gathered at the airport at 10.30 PM on 5<sup>th</sup> July 2025. The flight departed on 6<sup>th</sup> July at 3:00 AM (IST) and landed in Malaysia at 11:00 PM (MST).

## INTI International University (IU) On Map

### **About INTI International University:**

INTI International University is a leading private institution in Malaysia, known for its commitment to quality education and a transformative learning experience. It was established as a college in 1986 and later upgraded to university status in 2008. In 2020 INTI became part of HOPE Education Group. INTI has a strong focus on industry partnerships and internationalization, offering a wide range of programs designed to equip students with the skills needed for the global job market. It's located on an 82-acre campus in Putra Nilai, Negeri Sembilan, about an hour south of Kuala Lumpur. The university is ranked #1 in Asia for inbound exchange students (QS 2024) and #516 in the 2025 QS World University Rankings.

**Areas of study:** American Degree Transfer Program, Biotechnology & Life Sciences, Business, Computing & IT, Education, Engineering, Technology & Quantity Surveying, Fashion Design, Graphic Design, Health Sciences, Hospitality & Culinary Arts, Interior Design, INTI English Language Programmes, Media and Communication, Micro-Credential Programme, Multimedia Design, Online Learning Programmes, Postgraduate Studies, Pre-University Programmes, Professional Development Programme, Programmes for Working Professionals, Social Science.

**Level of study:** Certificate, Foundation, Diploma, Undergraduate, Bachelor Degrees, Masters, Working Adult Programmes, Doctorate

## Amenities & Facilities @ INTI International University

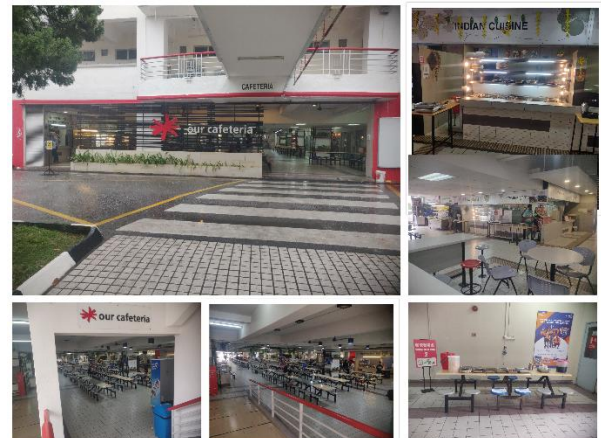

Learning Resource Center

Student Station

Medical and Health Center in Campus

Cafeteria in Campus

Sports, Stationary & Mart Amenities in  
Campus

Hostel Campus

**Day-0 (06<sup>th</sup> July, 2025):**

Mr. Kelvin the tourist guide has come to pick up the group from the KL Airport at 11:30 AM (MST). It took 25 minutes to reach at the INTI Campus. Every students were allotted the room keys with wifi credentials at the reception of the hostel. We visited the cafeteria and seen recreational facilities. We had a lunch at the cafeteria at the Indian Cuisine. All took a rest and then we kept a meeting at the Cafeteria at 5.00 PM to discuss about the itinerary and rules to follow during the study tour program.

## Day-1 (07<sup>th</sup> July, 2025)

The orientation program was planned from 10.00 AM – 12.00 PM in which the Dr. Jona Jaya, Global Relation Manager, International Relations and Collaborations Center (IRCC), Mr. Kumeresan Krishnasamy, Regional Head IRCC, and staff of INTI were present. Dr. Jona Jaya has briefed all the students about the achievements of INTI University and Malaysia. Staff of the INTI University have presented the about the INTI University along with vision and mission. Further ahead they discussed the itinerary for the 2 weeks along with the excursion visits planned for the students at the weekends. Also, staff have informed about the rules and regulations to follow during the stay and academic duration, the use of available amenities in the campus, and medical facilities available nearby. Staff of INTI further led all the students to campus visit. After lunch INTI University has planned a visit to AEON Mall the largest mall of the Malaysia from 2.00 PM – 5.00 PM.

## Day-2 (08<sup>th</sup> July, 2025)

Breakfast time started from 8.00 AM to 9.30 AM in the cafeteria. The academic sessions of Civil Engineering and BBA students started from the 8<sup>th</sup> July 2025. The 1<sup>st</sup> session of BBA Students started from 10.00 AM to 12.00 PM on Marketing Principles subject. The 1<sup>st</sup> session of Civil Engineering students started from 12.00 PM – 2.00 PM on Engineering Perspective subject. The lunch was followed from 11.00 AM to 2.00 PM. The 2<sup>nd</sup> session of BBA students started from 2.00 PM – 4.00 PM on Marketing Principles subject. The 2<sup>nd</sup> session of Civil Engineering Students started from 2.00 PM - 4.00 PM on Project Management subject. After class students took rest followed by the dinner. In the evening after dinner, the students visited the campus sports amenities and actively participated and enjoyed the volleyball and basketball games with the players. In the civil engineering lectures both the faculties introduced the course subject along with course outcomes, syllabus to cover and the assessment pattern to the students.

### Day-3 (09<sup>th</sup> July, 2025)

Students on the 3<sup>rd</sup> day completed their breakfast FROM 8.00 am – 9.30 pm. The class for the BBA students started from 9.00 AM to 11.00 AM on Human Resources Issues and Strategies by lecturer Dr. Nurliana Mohd Hasan. The task were given to the students to present on the topic given by the lecturer. Students have very well presented the topics assigned to them. The 1<sup>st</sup> session of the Engineering students started from the 10.00 AM to 12.00 PM on Engineering Perspective. Students followed the lunch from 11.00 AM – 2.00 PM. The 2<sup>nd</sup> session of BBA students started from 12.00 PM to 2.00 PM on Human Resources Issues and Strategies. The 2<sup>nd</sup> session of the Civil Engineering students were followed on Project Management from 2.00 PM – 4.00 PM. Lecturer Ir. Azhar Azmi has introduced the concept of Project & Basic Management Activities. Lecturer Ir. Azhari Azim has covered the report writing and practices from Engineering Perspective. Prof. Mridul Seth had an official meeting with the Mr. Kumeresan Krishnasamy in which both have presented the profiles of their respective university and discussed about the possibilities of further collaborations.

**Day-4 (10<sup>th</sup> July, 2025)**

Engineering students were having free and easy day due to the busy schedule of the lectures. So, we discussed the individual internship projects. Engineering students have shown their interest in working in the domain of environmental engineering, sustainability and green building concepts, highway and traffic engineering, etc. Whereas students of BBA were having the 2 sessions of Marketing Principles subject from 10.00 AM to 12.00 PM & 2.00 PM – 4.00 PM. At the end of the session students were assigned a task in groups to marketize a product and brand.

Prof. Mridul Seth conducted a meeting with Dr. Sudesh Nair, Head of Program Civil Engineering from 3.00 PM – 4.00 PM. During the meeting we discussed the pedagogy of the INTI IU for civil engineering programs. Dr. Sudesh talked about the research collaboration opportunities. He also informed that two tracks of lecturers are categorized as Academic Lecturer and Research lecturer under INTI IU. A total of 20 academic staff is available for the civil engineering program including 3 research lecturers in the domain of Structural Engineering, Transportation Engineering and Construction Management under Civil Engineering Program. Dr. Sudesh Nair has informed that they are running a Tri-mester schedule as a pedagogy. The intake is of 20 & 5 students for Under Graduate and Diploma Engineering respectively.

**Day-5 (11<sup>th</sup> July, 2025)**

The students have completed their breakfast from 8.00 AM – 9.30 AM and they followed for the sessions. The 1<sup>st</sup> and 2<sup>nd</sup> session of the BBA students were on Human Resources Issues and Strategies, during the session students were assigned the topics as a task in group to present them. Civil Engineering students were having only 1 session in the day of Project Management in which project planning and scheduling were discussed. Students went to explore the nearby marts and malls for shopping after the lectures in the evening time.

**Day-6 (12<sup>th</sup> July, 2025)**

The educational and cultural trip to Malacca (Melaka), Malaysia, began with our departure from INTI International University at 9:00 AM and concluded with our return at 7:00 PM the same evening. The journey was made even more memorable as we were accompanied by fellow study tour students from China, fostering a spirit of international camaraderie. Our first stop was the Encore Melaka Theater, an architectural marvel showcasing the region's rich cultural heritage, followed by a visit to the Straits of Melaka, where we learned about the city's historical importance along the Maritime Silk Road. From 1:00 PM to 2:00 PM, we enjoyed a vegetarian lunch in Malacca, which provided a refreshing break and a taste of local cuisine. In the afternoon, we explored the historical landmarks of the city, including the iconic A Famosa fort and Bukit St. Paul, capturing cheerful moments against the backdrop of its colonial past. Participation in the Melaka Fun Ride added a vibrant and interactive touch to the tour. The multicultural essence of Malacca—reflected in its Portuguese, Dutch, and Peranakan influences—left a lasting impression. The trip offered a valuable blend of learning, cultural exploration, and bonding among students, making it a truly enriching and unforgettable day.

**Day-7 (13<sup>th</sup> July, 2025)**

The trip to Putrajaya and Kuala Lumpur was a delightful and enriching experience, marked by cultural exploration, learning, and international camaraderie. The journey began at 9:00 AM, with our group—accompanied by fellow China students on a study tour—setting off for a day full of discovery. The first destination was Putrajaya, Malaysia's elegant administrative capital, where we visited the magnificent Putra Mosque and the official residence of the Malaysian Prime Minister. Surrounded by beautifully landscaped gardens and Islamic architecture, students took the opportunity to click group photos and appreciate the city's well-planned design. The next stop was the popular Beryl's Chocolate Factory, where everyone enjoyed exploring a wide variety of Malaysian-made chocolates and eagerly purchased sweet souvenirs. At around 2:00 PM, we had a delicious lunch in Kuala Lumpur, which provided a much-needed break and chance to interact across cultures. The final highlight of the trip was a visit to the iconic Petronas Twin Towers, where students were in awe of the world-famous skyscrapers and posed for memorable photos. The group returned by 6:00 PM, concluding a fulfilling and joyful day.

**Day-8 (14<sup>th</sup> July, 2025)**

Students had their breakfast from 8.00 AM – 9.30 AM in the morning. BBA students were having 2 sessions on Human Resources Issues and Strategies from 10.00 AM - 12.00 PM & 2.00 PM – 4.00 PM. Lecturer Dr. Nurlina has assigned a task to the students about to prepare and present on the topic discussed in the classroom. The activity was planned to enhance their ability and skills of presentation. Civil Engineering students were having free and easy day with no lectures. So they carried out work of their Internship Project under the guidance and mentorship of Prof. Mridul Seth.

**Day-9 (15<sup>th</sup> July, 2025)**

Solid Mechanics Laboratory

Cement and Concrete Laboratory

Highway and Geotechnical Laboratory

Fluid Mechanics Laboratory

Surveying Laboratory

A visit to the laboratory of the Civil Engineering program was scheduled from 11.00 AM onwards with the Head of Program Dr. Sudesh Nair. He has very extensively gave a walk of the laboratory works carried out by the students of INTI and other students from Mobility Programme & Study Tour Program. He said that the laboratories are calibrated timely and they all are accredited with the Board of Engineers of Malaysia. The main purpose of laboratories is to carry out experiments to fulfill the academic and research requirements. Also, as discussed, he has informed that many of the research track lecturers are guiding the final year students during their laboratory work. Many research lecturers were having sponsored funding (internal and external) to carry out the research work.

**Day-10 (16<sup>th</sup> July, 2025)**

Students had their breakfast in the morning from 8.00 AM – 9.30 AM. BBA students were having the 2 sessions of Human Resources Issues and Strategies from 9.00 AM to 11.00 AM and 12.00 PM to 2.00 PM. In the 1<sup>st</sup> session they have attended an online conference sessions going on as instructed by Dr. Nurlina. And during the 2<sup>nd</sup> session they have learnt about the topics “Benefits and Services” and “Establishing Strategic Pay Plans”. Civil Engineering students were having 2 sessions of Engineering Perspective and Project Management from 10.00 AM – 12.00 PM & 02.00 PM – 04.00 PM respectively. During the session Ir. Azhari Azmi has discussed the concepts of Occupational Safety and Health and HIRARC (Hazard identification, Risk assessment, Risk control). During the session of ir. Azhar Azmi has discussed to determine Critical Path Method using various methods.

**Day-11 (17<sup>th</sup> July, 2025)**

Students had their breakfast in the morning from 8.00 AM – 9.30 AM. BBA students were having the 2 sessions of Marketing Principles by Dr. Novia Zahrah from 10.00 AM to 12.00 PM & 02.00 PM – 04.00 PM. The students were assigned the task of comparing the market strategies adopted in India vs Malaysia. Students have participated in the activity with high enthusiasm. Civil Engineering students were having only 1 session of Project Management from 02.00 PM to 04.00 PM. Lr. Azhar Azmi discussed about the topic “Development of Work Plan for the Construction Industry”.

Day-12 (18<sup>th</sup> July, 2025)

Students had their breakfast in the morning from 8.00 AM – 9.30 AM. BBA students were having free and easy day with no lectures. BBA students have worked on the Industry Internship Project by studying the about the country and researched on the various company profiles. Civil Engineering students were having the presentation of Assignment provided by the Ir. Azhar Azmi for the subject of Project Management. All civil engineering students have enthusiastically presented the assigned task to them in a group. The session was of 2 hours from 10.00 AM to 12.00 PM. This activity was planned as a art of their assessment.

## Day-13 (19<sup>th</sup> July, 2025)

The trip to Port Dickson was an adventurous and memorable day, offering students a perfect blend of learning, fun, and cross-cultural bonding. Accompanied by fellow students from China, the group departed from INTI International University at 10:00 AM, beginning the day with a visit to Pusat Ikan Hiasan, a well-known marine conservation and aquarium center. Students explored a diverse range of ornamental and marine fish species, gaining insights into local aquatic biodiversity while enjoying a shared educational experience with their international peers. After the aquarium visit, the group had a relaxing lunch from 1:00 PM to 2:00 PM, recharging for the action-packed afternoon ahead. The post-lunch session at Port Dickson beach was filled with thrilling water-based activities that brought out everyone's adventurous spirit. Highlights included a steam boat ride, sightseeing on water, snorkeling, and crab fishing, followed by high-energy fun on the banana boat and jet ski rides. Students laughed, cheered, and bonded through every splash and wave, capturing joyful memories together. The group returned to INTI by 7:00 PM, ending the day with hearts full of excitement and lasting friendships. This trip not only provided a refreshing break and outdoor adventure but also served as a platform for cultural exchange and team bonding, making it one of the most cherished moments of the study tour.

## International Experience Program Weekly Report (20<sup>th</sup> July To 02<sup>nd</sup> August, 2025)

Day-14 (20<sup>th</sup> July, 2025)

Everyone had breakfast at INTI Cafeteria and left the campus at 8.30 AM for Genting Highlands. The trip to Genting Highlands was a peaceful yet exciting experience that combined spiritual discovery, scenic beauty, and leisure. The group reached Genting Highlands at 11:00 AM and began their adventure with a ride on the Awana Skyway Ropeway, enjoying breathtaking views during the ascent. The first stop was the renowned Chin Swee Caves Temple, where the group arrived at 12:00 PM. At the temple, students explored symbolic statues that portrayed powerful moral lessons — emphasizing that every action has consequences, where good deeds bring positive outcomes and bad deeds lead to suffering. These visually rich stories inspired reflection and appreciation. The group also visited the caves near the temple, adding a quiet and contemplative dimension to the experience. The entire

visit to the temple was peaceful and culturally insightful. By 12:30 PM, the group resumed their journey on the Awana Skyway, heading further up to Genting Highlands. The ropeway ride itself was calm and scenic, offering a unique view of the mountainous terrain. Once at the top, the students explored the various amenities and attractions, including shopping outlets, entertainment zones, and relaxing indoor spaces, soaking in the lively atmosphere. After an enriching and enjoyable day, the group departed from Genting Highlands at 4:30 PM and returned safely to INTI campus by 7:00 PM. The trip offered a beautiful mix of culture, nature, and fun — leaving everyone with meaningful memories and stronger bonds.

## Day-15 (21<sup>st</sup> July, 2025)

Students had their breakfast in the morning from 8.00 AM – 9.30 AM. Civil Engineering students were having extra class of Project Management subject from 10.00 AM – 11.00 AM. BBA & Civil Engineering students were having the common session on Cultural and Social Diversity Workshop delivered by Dr. Jason See Toh from 10.00 PM – 12.00 PM. Civil engineering students joined the common workshop in-between the session after completing their extra class. The 2<sup>nd</sup> session was also common for BBA & Civil Engineering students on Mass Communication from 2.00 PM – 4.00 PM by Dr. Noraini Moktar. During the session she conducted various classroom activities like stop and walk in the beginning of the session for 5-10 minutes with a motto of increasing the attention of the students in after lunch class. The session was further followed by dividing the students into different groups and provided by various objects to students for marketing it and selling among the students.

## Day-16 (22<sup>nd</sup> July, 2025)

Students had their breakfast in the morning from 8.00 AM – 9.30 AM. BBA & Civil Engineering students were having a common workshop session on “Malay Language Class” from 10.00 AM – 11.00 AM. During the session students learnt about the local languages and words useful during the study tour at Malaysia to communicate with the local people and vendors. Students had their lunch from 11.00 AM – 2.00 PM. Further Civil Engineering students were having 2 sessions on EEEEC & Project Management from 12.00 PM – 2.00 PM & 2.00 PM – 4.00 PM respectively. During the session of Project Management, they got exposure to software learning on Microsoft Project. Microsoft Project learning objectives focus on equipping individuals with the skills to effectively plan, manage, and track projects using the software. Key areas include understanding the interface, creating and managing tasks and resources, scheduling, tracking progress, and generating reports. BBA students were having free and easy day.

**Day-17 (23<sup>rd</sup> July, 2025)**

Students had their breakfast in the morning from 8.00 AM – 9.30 AM. BBA students were having free and easy day. Civil Engineering students were having 1<sup>st</sup> session on Engineering Economics, Estimation and Costing by Ir. Lim Jin Wei from 10.00 AM -12.00 PM. The 2<sup>nd</sup> session was on Project Management from 2.00 PM – 4.00 PM. Ir. Azhar Azmi discussed about the topic “Project Budgeting”. BBA students have explored the nearby places and were preparing for their internship project in the free time.

**Day-18 (24<sup>th</sup> July, 2025)**

Students had their breakfast in the morning from 8.00 AM – 9.30 AM. BBA & Civil Engineering students were having common session on Computer Workshop from 10.00 AM to 12.00 PM by Ir. Richard. He has conducted a hands-on session on developing a website for their personalized product on Wix. Students have presented websites based on various products such as clothing, gems and jewellery, diamonds, groceries etc. Civil Engineering students were having the 2nd session on Project Management. Ir. Azhar Azmi discussed about the topic “Quality Management”. BBA students were not having any sessions. Prof. Mridul Seth have assessed the Civil Engineering students for their Summer Internship Project carried out for 2 weeks. The presentations were conducted of individual students after their classes in the library of INTI campus.

**Day-19 (25<sup>th</sup> July, 2025)**

Students had their breakfast in the morning from 8.00 AM – 9.30 AM. Civil Engineering students were having 1<sup>st</sup> session on Project Management from 10.00 AM – 12.00 PM. Ir. Azhar Azmi discussed about the topic “Total Quality Management”. BBA & Civil Engineering students were having a common session on Physiotherapy from 02.00 PM to 04.00 PM by Ms. Nina Lim Siang Yin. She has covered the session on topics such as right posture while working and doing routine work. She also covered the possible causes of joints ache with their remedies. She conducted a few exercises in the classroom with sitting position. INTI has planned a visit to a famous Night market specially established every Friday near the campus. Students have done purchasing through the market.

**Day-20 (26<sup>th</sup> July, 2025)**

The trip to Batu Caves and Kuala Lumpur's shopping districts was a delightful combination of cultural exploration and urban adventure. The group departed from INTI International University at 9:30 AM after breakfast, heading first to the iconic Batu Caves—a sacred Hindu pilgrimage site known for its towering golden statue of Lord Murugan and the vibrant 272-step staircase leading to the temple caves. Students explored the beautifully decorated shrines and sculptures nestled within the limestone formations, gaining insight into the spiritual and cultural significance of the site. The peaceful and colorful surroundings created a perfect atmosphere for learning and group bonding. After exploring the caves and temple premises, the group enjoyed a vegetarian lunch at Batu Caves, offering a taste of traditional Indian cuisine in a serene and spiritual setting. Energized and refreshed, the group continued their journey to the bustling heart of Kuala Lumpur. The first stop was Sungei Wang Plaza, famous for its Japanese-themed market and diverse range of trendy, affordable shops. Students indulged in shopping, discovering unique souvenirs and fashion items. The final visit was to Lot 10 Mall, a modern lifestyle destination featuring global brands, where students had free time to explore, relax, and enjoy the lively city atmosphere. By 6:30 PM, the group returned to the INTI campus with shopping bags, smiles, and memorable experiences. The day offered a wonderful blend of tradition, culture, and urban excitement, making it one of the most enjoyable outings of the study tour.

### Day-21 (27<sup>th</sup> July, 2025)

27<sup>th</sup> July 2025 was a free and easy day for everyone.

### Day-22 (28<sup>th</sup> July, 2025)

Students had their breakfast in the morning from 8.00 AM – 9.30 AM. BBA & Civil Engineering students were having common workshops on Traditional Music Class from 10.00 AM – 11.00 AM by instructor Mr. Yuzaimuddin. Workshop, offering a unique cultural experience. Guided by a local expert, the session introduced traditional instruments like the Angklung (bamboo shaker), Gendang (drum), and Bonang or Caklempong (small gongs). Students enthusiastically engaged in learning rhythms and melodies of Indian song “Ek pyar ka nagma hai”, gaining hands-on experience and understanding of Malaysia’s musical heritage. The session was followed by Traditional Games from 11.00 AM - 12.00 PM by Ms. Vhisha and Ms. Hafiza from IRCC, we also played garba during this session. The 2<sup>nd</sup> common workshop was conducted on Bridge Model Testing, led by Ir. Raja Anna Kaleyane Raja Haroon, specifically designed for BBA and Civil Engineering students. Participants were divided into four groups, each provided with spaghetti and glue to construct a bridge model following specific design criteria. The activity aimed to test creativity, teamwork, and understanding of structural stability. Students actively engaged in the task, demonstrating enthusiasm and innovation in their designs. Upon completion, all bridges were tested for load-bearing capacity, and the bridge that carried the highest load was declared the winner and awarded first place. Prof. Mridul Seth has assessed the BBA students for their Industrial Internship Project carried out for 2 weeks. The presentations were conducted of individual students after their classes in the library of INTI campus. Civil Engineering students were having online extra classes of Engineering Economics, Estimation and Costing from 8.00 PM -10.00 PM.

**Day-23 (29<sup>th</sup> July, 2025)**

Students had their breakfast in the morning from 8.00 AM – 9.30 AM. The day began with a joint session for BBA and Civil Engineering students on the topic of Business Development, delivered by Dr. Mohd Shahbani Mohammad. The speaker provided an engaging overview of how drone-based videography can significantly influence marketing strategies by enhancing visual communication and customer engagement. He also shared his personal journey of transforming a passion for drones into a thriving business, inspiring students to explore the potential of turning hobbies into entrepreneurial ventures. After the common session, the BBA students had a free and easy schedule, which they utilized to explore Kuala Lumpur city. The Civil Engineering students continued with two more technical sessions. The 2<sup>nd</sup> session focused on Engineering Economics, Estimation, and Costing, where students learned about critical financial concepts such as annuity calculation, determination of principal amount, and forecasting future costs based on given interest rates and durations. The 3<sup>rd</sup> session was centered around Project Management, where Civil Engineering students presented their assignments as part of an internal assessment. Civil Engineering students were having online extra classes of Engineering Economics, Estimation and Costing from 8.00 PM -10.00 PM.

## Day-24 (30<sup>th</sup> July, 2025)

Students had their breakfast in the morning from 8.00 AM – 9.30 AM. Civil Engineering students 2 sessions of Engineering Economics Estimation and Costing (EEEC), and Project Management from 10.00 AM -12.00 PM & 2.00 PM – 4.00 PM respectively. Students were having a presentation of the assignment given by Ir. Lim Jin Wei for the subject EEEEC. Students were got assessed based on their presentation and assignment submission. During the 2<sup>nd</sup> session, students attended the lecture of Ir. Azhar Azmi on Project management and covered the topic as “Construction Phase & Maslow's Hierarchy of Needs Theory & Herzberg's Motivation Theory – Two Factor Theory”. Students had their lunch from 12.00 PM – 2.00 PM in-between the session time. BBA students were having free and easy day so they went to explore the Kulala Lumpur city.

## Day-25 (31<sup>st</sup> July, 2025)

Students had their breakfast in the morning from 8.00 AM – 9.30 AM. We had a common meeting over breakfast with Vignesh sir and all students at Cafeteria of INTI International University. Students have shared their overall experience of the study tour and their concerns during the duration. Further ahead BBA & Civil Engineering students were having common session on Fitness Class from 10.00 AM – 12.00 PM. Students were taken to the gym and started with warming up exercises followed by providing the basics knowledge of all the equipment available in the gym with right gesture practice with it. Students enjoyed doing the exercises on the available equipment in the fitness club. Further students had their lunch from 12.00 PM – 2.00 PM. Civil Engineering students were having last session on Project Management by Ir. Azhar Azmi from 2.00 PM – 4.00 PM. During the session lecturer have covered the topic “Project Financing and Evaluation”. BBA students were having a free and easy day after their fitness class.

**Day-26 (01<sup>st</sup> August, 2025)**

The day began with breakfast for all students from 8:00 AM to 9:30 AM. Civil Engineering students then proceeded for a lab visit at the Civil Engineering Department of INTI International University from 11:00 AM to 12:00 PM. During the visit, students explored various laboratories including Geotechnical Engineering, Highway Engineering, Surveying, Concrete Technology, Mechanics of Solids, Fluid Mechanics, and the Fabrication Lab. As a gesture of goodwill, a souvenir was presented to Prof. Mridul Seth during the visit. Lunch was scheduled from 12:00 PM to 2:00 PM. Meanwhile, BBA students had a free and easy day for their own exploration and relaxation. The closing ceremony was held from 3:00 PM to 5:00 PM at Lecture Theatre B, Learning Resource Centre. Dr. Asokan Vasudevan, Director of Sustainable Business Innovation and Corporate Responsibility at INTI, graced the occasion. He shared valuable insights on the support INTI offers to students, including scholarships for research and further studies. Following this, Prof. Mridul Seth addressed the gathering, highlighting Gujarat Technological University's (GTU) achievements and its benchmarks in academics, research, and patents at both national and global levels. Students were then invited to share their experiences from the study tour. The event concluded with the distribution of certificates and a group photograph. Later at night, from 11:30 PM to 1:00 AM, Prof. Mridul Seth engaged the students in a team-based brain game puzzle titled "Lost at Sea." Students enthusiastically participated, using clues to solve the scenario and thoroughly enjoyed the challenge.

**Day-27 (02<sup>nd</sup> August, 2025)**

2nd August marked the final day of the students' visit to INTI International University. All students were scheduled to depart from Kuala Lumpur, Malaysia to Ahmedabad, India on a flight departing at 11:00 PM (MST) and arriving at 2:00 AM (IST). The day began with students busy packing their luggage and making final preparations for departure. Lunch was arranged between 12:00 PM and 2:00 PM. Post-lunch, students cleaned their rooms and assembled for departure at 7:00 PM from INTI International University. The group reached Kuala Lumpur International Airport (KLIA) by 8:00 PM. All immigration and check-in formalities were completed by 9:30 PM, and students waited at the departure gate, ready to board by 10:00 PM. The flight landed at Ahmedabad International Airport at 1:30 AM. Immigration and baggage claim were completed smoothly by 2:30 AM. Parents were present at the airport to receive the students, and everyone then departed for their respective homes, concluding the international study tour.

#### Feedback:

##### 1. Overall administration / interpersonal interactions of DIR (for Mentor & students):

- The DIR ensured timely communication at every stage of the process, beginning with document submission, followed by the departure meeting, providing necessary instructions to students regarding accommodation, academics, financial applicability, and food arrangements. The DIR also coordinated the scheduling of the 4-week study tour at INTI University, addressed student issues during the tour, oversaw the planned excursion visits in Malaysia, and facilitated the final arrival back in India.

##### 2. Management of travel related procedures (by DIR as well as travel agency)

- Everything was well planned and efficiently managed, from air ticketing to the visa, as well as the arrival and departure formalities. The procedures at the airport were carried out seamlessly. The pick-up and drop facility at Malaysia Airport was provided by the INTI International University.

##### 3. Academic delivery and related matters by Foreign Universities

- The academic sessions were well structured and supported by extra and co-curricular workshops for both BBA and Civil Engineering students. The BBA syllabus was completed on time, while Civil Engineering students attended classes on Engineering Perspective and Project Management during the first three weeks, followed by Engineering Economics, Estimation and Costing in the fourth week, with additional classes scheduled to ensure complete coverage. To enrich their cultural experience, sessions on Traditional Music and Games and Learning the Local Language were also conducted. Civil Engineering students further gained practical exposure through visits to the Civil Engineering Laboratory and the Fabrication Laboratory, with a focus on 3D printing at INTI International University. Assessments were primarily based on presentations and assignments, which were given and evaluated by the faculty in a timely manner.

##### 4. Residential, excursion visits and other services by Foreign Universities

- Residential facilities were well arranged, with air-conditioned rooms shared by four students, each having an attached washroom. Separate hostels were provided for boys and girls, and a common kitchen facility was available in the hostel premises. Students also had access to amenities such as a swimming pool, gym, and other sports facilities within the hostel campus. Excursion visits were organized over five days on weekends, covering Batu Caves, Kuala Lumpur city, Port Dickson, Genting Highlands, and Melaka Heritage City. Lunch and dinner during these visits were provided by INTI University. Typically, the group would leave the campus at 8:00 AM and return by 7:00 PM on excursion days.

##### 5. Specific points related to students behaviour/coordination

- The students were cooperative and demonstrated a good understanding throughout the program. They enjoyed the food provided at the cafeteria as well as the excursion visits. Moreover, they were punctual and regular in attending their classes.

##### 6. Overall IEP Report

- Overall IEP report has been submitted herewith.
